

MAHOGANY ENTRY SYSTEMS

From Barnett Millworks, Inc.

Old Mobile Series

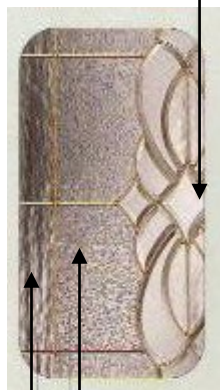

Hand Crafted Quality, Classic elegance

Old Mobile Doors and sidelite panels are made of Honduran Mahogany. World renowned as a high grade of lumber used in fine millwork and furniture manufacturing, Honduran Mahogany is prized for its stability and unsurpassed beauty.

Our manufacturing design includes solid rails and engineered stiles. Engineered stiles are used to avoid long runs of solid material, which have a tendency to twist and bow. We also use a "hardwood dowel construction" process which utilizes hardwood dowels on two inch centers at every joint of a stile and rail. The smaller panels on our doors are solid, while larger panels, such as the one containing our oval glass, are mitered at each corner to ensure stability. Heavy raised molding is standard on the exterior face and optional on the interior.

Hand-Cut Bevel

Glue Chip

Water Glass

Like all of our decorative glass products, this collection is carefully cut and assembled by hand. Moreover, the Old Mobile Series exhibits the most elaborate and luxurious designs of all our collections. It includes Exquisite beveled glass patterns surrounded by glue chip glass, and framed by a border of flowing water glass. All are connected using bright brass coming to add the finishing touch to this tasteful centerpiece to your home.
